

21st of Nishan, 5770

To: His Excellency the President of the Virtual Commonwealth of Cyberia
From: The Foreign Ministry of the Republic of Ashkenatza

Letter of Introduction & Other Peripheral Matters

It is my great honour to extend once more the greetings and felicitations of the Republic of Ashkenatza to the Virtual Commonwealth of Cyberia and to present to your Excellency the [Letter of Credence](#) by which His Excellency the Nohsi, Chaim Wajnstein, has appointed me Foreign Minister for the Republic.

We furthermore congratulate Jacobus B.S. Kahunamea on his accession to the presidency. This is doubtless an epoch making occurrence in the context of Cyberian history.

Further to our earlier correspondence dated the 21st of February 2010, please be advised that our government is extremely disappointed by the failure of the Cyberian Government to respond to our extended hand of friendship.

Accordingly if we have not received a positive response to this communiqué from the Virtual Commonwealth of Cyberia by Saturday the 10th of April a state of mild irritability shall exist between us and a schedule of aggressive spoiled-commodity dumping shall commence against Kernsopolis. I warn you now that we shall have no hesitation whatsoever if comes to the necessity of burying Evergreen Mansion under mounds of rotten and oozing Gefilte fish.

May Your Excellency please accept the assurances of my highest consideration.

Yours sincerely,

Pachad Emet ben Mavet
Foreign Minister of the Republic of Ashkenatza
